Running four venues without the paper

Surti House and Surti Anda run on CrewConnect across Western Sydney — same rosters, checklists and stock system on every phone, at every location.

Surti House
Blacktown & Vineyard, NSW

Surti Anda
Wentworthville & Marsden Park, NSW

One system, four locations
Rostering, time clock, timesheets, checklists, stock and orders

BEFORE CREWCONNECT

Paper startup and stock sheets, supplier orders in a notes app, rostering that took Sunday night, and pay day with a calculator.

WHAT CHANGED — IN THEIR OWN WORDS

“We used to run two kitchens off paper — a startup sheet on the wall, a stock sheet on a clipboard and supplier orders typed into a notes app. Now Blacktown and Vineyard run the same opening and closing checklists on everyone’s phone, stock gets counted in minutes, and our orders go to suppliers as a proper PDF. When the vegetables arrive, whoever’s on shift marks them received and the stock is right.”

Owner, Surti House — Blacktown & Vineyard, NSW Shift checklists · Stock control · Purchase orders

“Rostering two stores used to take my Sunday night. Now I copy last week, fix a few shifts and it’s out — and I can see the wage cost before I publish. Staff clock in on their own phones at whichever store they’re working, and pay day is a PDF instead of a calculator.”

Owner, Surti Anda — Wentworthville & Marsden Park, NSW Rostering · Phone time clock · Timesheets

Same routine, every site
Opening and closing checklists on every phone, with each tick recording who did it and when.

One roster, any location
Copy last week in one tap, see the wage cost before you publish, and staff clock in on their own phones.

Stock to supplier order
Count stock on a phone, send orders as a proper PDF, and mark deliveries received.

Start using free

Try CrewConnect across all your sites for 6 weeks. We do the free end-to-end setup for you — send us the paper and spreadsheets you use today and we load it all. Pay only if you like it.
